

## Green Building Tours

### Sponsorship Opportunities

**ILLINOIS  
GREEN**

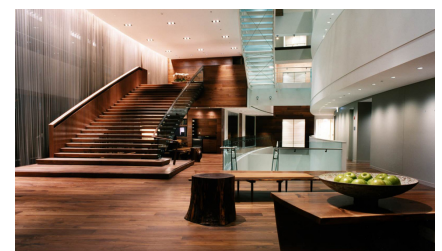

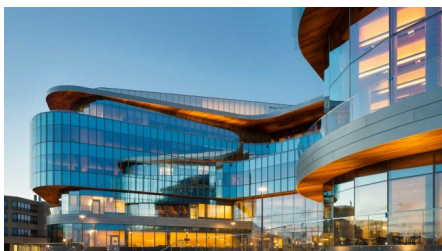

A USGBC COMMUNITY

Greenbuild is Returning to Chicago! The Greenbuild International Conference and Expo, which was launched in 2002, is the world's largest conference and expo dedicated to green building. Greenbuild features several days of inspiring speakers, industry showcases, specialty workshops, tours of Chicago's green buildings and invaluable networking opportunities.

Each year the host committee develops a Greenbuild Tours Program that helps attendees learn outside the convention center walls and presents the best of the area's sustainable buildings and neighborhoods. Over 30 tours featuring 75 sites will be showcased over three days of the conference allowing Greenbuild attendees to explore green buildings.

Sponsorship will be your opportunity to demonstrate Chicagoland's influential leadership in sustainability and gain exposure to Greenbuild attendees from across the world.
