

Women in Green Building Leadership Luncheon

Culture of Courage

December 4, 2019 • 11:00 am- 1:30 pm

The **Illinois Green Alliance** will host the **Women in Green Building Leadership Luncheon**. This signature annual event celebrates women in the local green building community through engaging and enlightening conversation.

This year's theme, **Culture of Courage**, celebrates the contributions that women bring to their communities and the green building movement.

It takes a Culture of Courage to stand firm as women paving the way for equitable opportunities, having their prominent voices heard in the C-Suite, especially in engineering, architecture, and construction verticals. A transformed culture would be representative of an evident rise in women seated in the boardroom, where both genders have equitable access and are involved in leadership and decision making.

During this event, an inspirational, multi-generational panel of women leaders will tell their compelling stories, share insights, and build awareness on creating a Culture of Courage AND Encouragement.
